ABDUCTION OF LORELEI NN DS BI (lots of) 1978 BLUE VIDEO

P/D - Richard Rank
F/A - John Galt, Charles Neal
F/A - Serena, Jenny Gillian, Monique Perrij

For better or worse the first twenty-five minutes of this sexvid has the most believable kidnapping-rape scene you've ever seen. It will frighten most women, but perverse or not it probably reaches primitive areas of most male brains and will sexually arouse them. It's worth owning for a male-female discussion on this point. It begins deceptively with Serena playing the part of Lorelei an obviously rich young woman who is shopping through high class stores, looking at expensive jewelry, and clothing and finally buying a lipstick. Later in her Lincoln Continental as she's driving she uses the car telephone and telephones her father and discovers that he is leaving on a few days business trip by air. You are now aware that she is being followed. When she stops again, near a shopping center, a van and another car pull up beside her. Two men jump out, grab her, toss her in the van, and one of them viciously rapes her for ten or fifteen minutes in the van while the other guy drives. Lorelei fights him wildly. She screams and moans piteously as he succeeds. In the process you see the rape explicitly. Later, as the captive - not only of the two guys, but a woman Lorelei is tied and photographed genitally with a pop bottle shoved into her vagina. Then, the turnabout occurs. The woman Jenny unties her. The de rigeur bisexual scene occurs and the plot slowly runs down. Instead of maintaining the shock and trauma of her rape or trying to escape, Lorelei is suddenly enjoying her female captor sexually. Before the flic is over one of the guys shoots and kills the other guy when he tries to rape Lorelei. But eventually Lorelei seduces the guy who raped her and murders him, so that she can live happily ever after with Jenny, the female kidnapper. Good acting for the most part. This one raises the question: If you portray any kind of violence in the arts, including sexual violence, shouldn't the material reflect some moral judgement against the violence? This one really doesn't.

AFFAIRS OF JANICE NN BI DK DS 1976 BLUE VIDEO

P/D - Leon de Leon, Zebedy Colt
F/A - Bobby Astyr, Ras Keen, Zebedy Colt
F/A - C. J. Laing, Crystal Harris, Annie Sprinkles

The Director of this film, Zebedy Colt, plays the villain, George King an alcoholic artist. His wife tells George that cobwebs grow between his legs. She has never been unfaithful to him with a man but she loves Janice (C. J. Laing). The movie opens with George floating dead in a swimming pool. You'll stay tuned on this one to the end which is wildly sadistic. Kirk (Ras Keen) who is also in love with Janice is caught by George making love to her and George's wife. Tricking Kirk to pose as Prometheus (bound) for him, George strips Kirk, sprays him silver, chloroforms Janice, bites her vulva and inserts his fist in her until blood flows and then, after spraying her silver, too, suspends her along with Kirk from the ceiling, both of them tied together and dead. He then calls the police and his wife is accused of the murder. In between, irrelevantly, Bobby Astyr appears with Annie Sprinkles as guests of George and his wife, and Annie gets involved with Ras Keen (Kirk) who slaps her ass red while he screws her. But Annie gets her Annie Sprinkle revenge by pissing on him. You may not like it, but you won't forget it.

ALICE IN WONDERLAND NL NR NM 1975 XTRA-VISION & MEDIA

P/D - Bill Osco, Bud Townsend
F/A - Bradford Arndexter
F/A - Kristine de Bell

There's both a hardcore and softcore version of this one. A laughing, musical version of Alice, it is one of the few explicit sex films made in the past ten years in which genital sex is neatly interwoven into the story line. Kristine de Bell is a captivating actress (the only one incidentally who has made the transition from porno to regular films). For my money the hardcore version is superior to softcore. (Xtra-Vision offers the hardcore direct via mail order.) Basic scenes eliminated from the softcore Media version are Kristine in a loving and nicely photographed first masturbation experience and Kristine examining with awe the Mad Hatter's cock and kissing it and sucking it affectionately, - plus a few other genital sex scenes. The difference in length is about ten minutes. Most women will enjoy either version. The hardcore version costs about $30 more than the softcore.

AMERICAN PIE NN BI 1980 SELECT/ESSEX

P/D - Damon Christian, Jeffrey Fairbanks
F/A - Eric Edwards
F/A - Lysa Thatcher, Arcadia Lake, Kitty Shane

The first adult film to be produced in Dolby Sound. This one is presumably a tongue in the cheek Ransom of the Red Chief Plot. While the wealthy Daddy Chandler is screwing with the French maid and his wife is upstairs in bed with her boyfriend two seedy characters kidnap their debutante daughters. Along with a waitress they've picked up to help them collect a $20,000 ransom they hideout in a mountain lodge. But Daddy thinks his sophisticated daughters are playing a joke on him. "You can have them." So what do they all do together? You guessed it! Potentially a plot with many conflicts. Alas it got sidetracked.

P/D - Howard Howard, Gloria Leonard
F/A - Marc Stevens, Jamie Gillis
F/A - Gloria Leonard, Ming Toy

A film about a woman by a woman. Many women will be quite fascinated with this sexvid, especially scenes where Gloria verbalizes, in a long dialogue, how she feels while she is screwing, and as she experiments with a vibrator connected with a wiggly reproduction of a male head. The final scene with Gloria in bed with two men is according to a recent survey of Cosmo girls by Cosmopolitan Magazine, a common experience for about 25% of them. Like this one or not Gloria is a pragmatic woman.

ANGIE, UNDERCOVER COP NN DK (but only occasionally) 1979 BLUE VIDEO

P/D - Navred Reef
F/A - Roger Caine, Eric Edwards, Bobby Astyr
F/A - Samantha Fox, Vanessa De Rio

A local minister spying at his neighbors complains to Sergeant Blowjack (yeah, he's bald) that everyone is screwing in plain sight. Angie, and Kowalasky are assigned to the case. About all you can say about this one is that everyone in suburbia are screwing - outdoors in their back-yards, next to their swimming pools, in the middle of washing the family automobile including a "chocolate and vanilla job" (a white girl and a black girl) enjoying each other's genitals. As Kowalaski tells Annie: "I've seen more coming and semen today than in my whole life." - and he isn't kidding-and you will, too! If you own a video camera, and have a private back-yard, with a few loving friends, you could make your own version of this one.

AUTOBIOGRAPHY OF A FLEA NN NL 1976 MITCHELL

F/A - John Holmes, Paul Thomas
F/A - Jean Jennings, Annette Haven

Based on a 17th Century pornographic story, the infamous flea (in a voice over) lives on the genitals of a lovely young girl with occasional vacations on the genitals of priests who lead her into a life of sin -- biting them occasionally so that all is not pleasure. No collection of sexvids is complete without this one which is among the few laughingly explicit films ever made with a continuous connected story line from beginning to end. Beautifully costumed, too.

P/D - Alex de Renzy

F/A - Cuddles Malone, Amber Hunt, Linda Wong

Best Film Direction 1978 Erotic Film Award. Trying to untangle the story line about Dan (played by Otis Sistrunk, a former Superbowl star with the Oakland Raiders) who seduces a fifteen year old nymphet or is seduced by her and is caught by momma (an hour an half later) and wraps him in cellophane, fucks him and tries to cut his cock off for defiling her daughter, will keep you intrigued. An alternate title could have been The Training Camp the story of a male whorehouse whose clients are upper income very sexually verbal and demanding women. To top it all de Renzy gives a fifteen minute sequence of a woman hot for cock who exhausts ten guys. You've never seen anything like it!

1979- Best Film 1979 Erotic Film Award. Screw's Best 10 for 1978 #3. A sexvid with an intriguing plot and a down to earth story. Much humor, silly fantasy and bawdy laughter. Bobby Astyr awakes for an early morning fuck and ejaculates on his wife's belly because she's not on the pill. Making this the first "legimate" wet shot in adult film.

F/A - Samantha Fox, Molly Malone

Screw's Best 10 for 1978 #3. The entire story revolves around one female which is unusual for adult films. Penny Hickey is trying to find the answer to a riddle and in the process has to screw with at least five men in order to inherit her uncle's fortune. Good New York City photography. A silly story with even sillier background music from Strauss.

BALL GAME   NN BI DK NL   1980

P/D - Anne Perry
F/A - Laurence Rothschild
F/A - Candida Royalle, Lisa de Leeuw

The baseball game between the inmates of the Women's County Jail (the Beavers) and the male guards (the Dicks) doesn't get played until this sexvid is more than half way through. To wear them out, the night before the game the women capture the guards and one by one suck and fuck them to a blob. Is Anne Perry, not so subtly, trying to prove that when it comes to sex men are very much the weaker sex? In this one Anne has pragmatically proved to the male reviewers who put her down for the romanticism of her films Sweet Savage and Count the Ways that she can produce a male fantasy film equal to any male production. But most women watching it will shrug or say ugh.

BALLING FOR DOLLARS   NN NM BI   1980   ASTRO

No actors or actresses are identified on this tape but John C. Holmes who appears in a threesome.

Mostly this one is a series of loops with the ~~same~~ women, who presumably work for a collection agency, ~~and~~ instead of collecting for their company collect some balling for themself. Begins with a woman masturbating in a shower sequence which is far more interesting than anything Brian de Palma offered in Dress to Kill. Then proceeds to a woman picking a guy up in van and offering to service him, two women taking on a guy in a garage who was working on his car. He relaxes and works on them, or are they playing on him? Women won't like this one -- but the actresses are in control of the male actors.

BANGKOK CONNECTION   NN BI mild DK and NL on the silly side   1979   CABALLERO

P/D - Alan Payet
F/A - Not identified
F/A - Linda Jade, Marlene Gillis, Jennifer Sax

While the few Oriental women in this sexvid are probably not Siamese and the exterior shots were probably taken from some travel film, our hero Aloysius Dunbar is an amusing Candide-style cluck. In search of a sexual El Dorado he manages to get his cock-banged (in Bangkok?) and is unable to avoid at least a dozen women who want to and do "fucky-wucky" with him in the course of this 120 minute tape. This is a European made film (probably German) and has sexual silliness about it that many American filmmakers are unable to capture.

BARBARA BROADCAST | NN BI DK and DS in one extended bondage scene | 1977 | TVX QUALITY X

P|D
F/A - Jamie Gillis, Bobby Astyr
F/A - C. J. Laing, Annette Haven, Constance Money

Among other things C. J. Laing urinates in a dish and is screwed by a human dishwasher. This is a plotless sexvid gravitating around a posh New York restaurant where the female waitresses lie on the table and offer the male customers hot pussy as an hor d'oeurve, and the male waiters offer sperm salad dressing squirted on the lettuce and waitresses who drop anything must give the headwaiter a blow job. Unfortunately, it's not very funny - only sad.

BARBIE'S FANTASIES | VIDEO-X HOME LIBRARY

BARONESS DE NICA DK DB DS ASTRO

No producer or actors names listed on credits.

This sexvid tears a few pages from Krafft Ebbing and offers all the S & M delights including transvestism, chained nipples, chained wrists, flaying asses until they bleed (both male and female) with leather whips, enlarging a vagina with a big cucumber, pissing all over one's lover while he drinks the urine, and leather masks on the Baroness - plus for good measure some incest: a father screwing his teenage daughter and later being whipped for the deed and an extended scene of rimming (asshole eating) and for good measure white women with strong black lovers. In between their yells and screams the participants are presumably enjoying themselves.

BEACH BLANKET BANGO NN NL NR 1975 FREEWAY

P/D - Richard Aldrich, Morris Deal
F/A - Ric Lutz
F/A - Renne Bond, Cindy Taylor

This one has a very bad title. Screwing on the beach isn't the basic plot. If you were in college in the late 1960's, you'll enjoy the half-truths half silliness of the story. Renee Bond is more fun than Annette Funicello ever was. She gets pregnant by one of the guys. Doesn't know which one but she loves them both. Then, while they are in Vietnam she marries a man with money. A laughing sexy, sexvid that could be re-filmed with a bigger budget, or Richard Aldrich could re-make The Harrad Experiment!

BEHIND THE GREEN DOOR DK DS 1977 MITCHELL

P/D - Mitchell Brothers
F/A - George McDonald, Johnny Keyes
F/A - Marilyn Chambers

A young woman is kidnapped and taken to a sex club to broaden her sexual horizons. She is subjected to every kind of sex including three different penises in her mouth, anus, and vagina while she rides a trapeze. An ugly film, but one you won't forget. Worth owning on a historical basis because when it was made there was nothing equal to it photographically or story wise - and Marilyn Chambers really looked like the girl in the choir.

Two masochistic-sadistic sequences shot live on video tape for home viewing. But Love TV is not aiming at the at-home female market. This sexvid will horrify most women unless they like to watch women wearing collars, wrist-cuffs, pincers on their nipples and labia attached to chains. One slave and master sequence with Serena being whipped on the ass by Jamie Gillis as she grovels at his feet and eats his toes and prick, or is dragged around by a chain around her neck and flayed on the vulva and anus with a whip and has her breasts roughed up and nipples pulled, covers most of the B & D scene. Followed by an interview with Serena who said she enjoys pain and sex, it "wakes up her body."

P/D - David Friedman, Henri Pachard

The story of Bree Livingston working her way up - with lovely sexual aplomb - from waitress to a Hollywood star. The story line continues through this sexvid and is cleverly told by skilled photography and editing which interweaves the sexual elements and will leave women viewers crying for, and empathizing with Brie. This is a film that in a soft core version could appear on late night TV. Directed by Henri Pachard a.k.a Ron Sullivan who directed Babylon Pink.

CALIFORNIA GIGOLO	NN NM BI and DB in a 10 minute scene that's not so funny as it's supposed to be	1979	WONDERFUL WORLD OF VIDEO

P/D - Eliot Lewis, Bob Chinn
F/A - John C. Holmes, Don Fernando
F/A - Veri Knotty, Kitty Shane, Vanessa Tibbs

This one starts intriguingly in Palm Springs with Johnny Holmes following a woman into the tram entrance for a trip up the mountains and telling her: "I can really show you some fine loving." But then it strays back to Beverly Hills with one vulva tasting, cock sucking, sperm swallowing sequence after another, all very tastefully done. Nothing much to distinguish it except Veri Knotty's ability to tie her labia lips together in a knot when she is masturbating. Harmless, with one good thing: a nice Hollywood, Beverly Hills, Malibu ambiance in the cinematography.

P/D - Radley Metzger

F/A - Danielle Gaubert

A modern, jet-set version of Alexandar Dumas' novel about a consumptive prostitute, mistress of the Duc de Mauriac. Marguerite and her lover Armand, prove in this sexvid that Radley Metzger can (but hasn't yet as Henry Paris, his adult film aka) make the kind of explicit sex film that would entrance women and men. The sad story of Marguerite has the twist and turns of a soap opera, but it is exquisitely photographed, and the acting and dialogue are believable. If the sex scenes had been more sharply focused, instead of choregraphed, Metzger would have produced the first classic porn film worth owning.

CANDY_THE EROTIC ADVENTURES OF | NN NL | 1977 | WONDERFUL WORLD OF VIDEO

P/D - Gail Palmer
F/A - John C. Holmes, Turk Lyon, Paul Thomas
F/A - Carol Connors, Georgina Spelvin

This film preceded Candy Goes to Hollywood. There is very definitely a female touch in this sexvid. Laughingly "based on Voltaire's Candide," it is funnier than the sequel. Among others a sequence of Candy making love with her Spanish boyfriend who can't speak English interrupted by her father who catches them both in bed and the father having a heart attack as the boy leaps out of Candy's arms - ejaculating. It has a real Chaucerian touch that escapes most film producers. Worth owning.

CANDY GOES TO HOLLYWOOD NN NL BI plus one DK Mazola party orgy 1978 WONDERFUL WORLD OF VIDEO

P/D - Gail Palmer
F/A - John Leslie, Howie Gordon
F/A - Carol Connors, Wendy Williams

From a male point of view there are some very funny scenes in this sexvid including satires called the Dong Show with Chick Bareass, Jack Farson of the Last Night Show, and Samuel Goldlicker of Mammoth Movies. Candy, beautifully played by Carol Connors, is a dumb blonde that many gentlemen prefer. She gives men a protective feeling - but women won't enjoy seeing Candy hypnotized by John Leslie and told that she is sucking a vanilla ice cream cone which she happily agrees is very delicious.

CANDY STORE NN DK some silly DS whipping scene 1976? ASTRO

The only "identified actor or actress on this one is Candy Samples. Who's she? In the sexvid, she's madame of the "Candy Store" her own house with five or six girls to serve the clients. If the client isn't satisfied, Candy will finish him off. This is a low budget quickie which required only a living room and a bedroom to make, and a total actor's budget probably under $10,000. Some of the girls actually talk with their customers in what is occasionally natural conversation. In addition there is one gratuitous whipping scene, one virgin sold to Candy and promptly deflowered, and one extended group sex scene - all the girls and one client which all take place in the same bedroom.

CARNAL GAMES BLUE VIDEO

P/D - Bob Gripe, Ralph Lander
F/A - John Leslie, Jake Teague
F/A - C. J. Laing, Sharon Mitchell

The opening sequence of this one will keep you intrigued for the first ten minutes. Despite a lot of kinkiness that follows the story line hangs together pretty well. Thom, a middle-aged, wealthy man marries Kate because she looks exactly like his sister who died in an automobile accident. He enjoyed watching her make love to her various suiters because later she made love to him "I was the only love she really wanted." Kate takes on Thom's sister's role-screwing men so that Jake can watch her in the act. Jake Teague and C. J. Laing do some of the better acting you've seen in adult films. Teague looks like an old time matinee idol, C. J. Laing occasionally looks as if she could be Barbara Streisand's sister. She is watched by the camera in a long masturbating sequence during which she uses a chain tight against her anus and clitoris for pain and excitement. Women may like some of this sexvid if they close their eyes to an extended orgy scene during which a penis covered with menstrual blood is revealed - and also C. J.'s pimply ass. The momentary sight of menstrual blood in this sexvid aimes a question: Since all the porno stars are obviously still menstruating why hasn't some producers attempted to normalize it, and develop female moods to correspond to their cycles. They could also dare to show that many men have no fear or disgust with menstrual blood and often copulate during a woman's period.

Johnny Wadd gets involved with Charley's Devils (Angels, to you) in this one. He has the Jade Pussycat left over from another film and they want it. In the process Johnny is as usual a delicate considerate lover even when one of them orders steak tatare and tells him she loves raw meat, and another begs him to "fuck her in the ass" and a Chinese girl tries to stab him, and another "Devil" KO'ES him with knockout drops which he imbibes from her snatch. On Grant Street in San Francisco a couple pays $100 bucks for a jade carving of an erect penis. They take it home and, of course, try it in the female's vagina. In the meantime some other people are looking for it because whoever owns the jade penis achieves new orgasmic heights. Two guys steal it, try it on their girlfriends, and a woman sticks the carving in a guys's anus while he's screwing her. The only redeeming feature of this one is the two Chinese women (Desiree and Linda) but in case you still believe in that hoary one about Chinese women it isn't true. They don't do it sideways!

Don't let the title on this one mislead you. It's not oriental. Chopstix is a catering service whose mission is to pay off the mortgage on a huge estate so that our heroine will inherit it and not the bad villain lawyer. With a group of women they accomplish this by serving hot dogs warmed in their vaginas, and a champagne punch with a naked lady immersed in the bowl. It should be funnier than it is.

Primed with alcohol is the only way to get into Cinderalla. No pun. That's what it's all about. In process, the Prince's Lord Chamberlain cuts off his finger (literally, no kidding) as he watches two maids strip. Cinderalla squirts milk from her tits and pops corn on her pussy. Her fairy godfather is a black dude who endows her with a "snapper betwixt her thighs" and the Prince who has never climaxed searches blindfold in bed with numerous commoners on the night of the ball to discover one who can get him off She, of course, is our darling Cindy and with her snapper, does the job. The guys in Upper U Omega Fraternity are low class. The girls in Alpha Epsilon Zeta Sorority are about to be featured in a national magazine, Newsmonth, owned by the father of one of the sisters but only if they date with the less horny Phi Upsilon Delta brothers. The story line is not only pretty silly, but worse the actors and actresses in this one look as if they should be working for their doctorates rather than their undergraduate degrees, or just working. On the other hand (or on your penis or vulva, if you prefer) most of the top porno stars, male and female make at least one genital appearance in this one, and no one can deny that they are about the right age to portray the nice looking neighbors you meet in your apartment, or in suburbia, or in church. There are the usual "don't-come-inside-I-want-to-see-you-squirt-all-over-me-sequences, and a sorority initiation party with vibrators and paddling of co-eds, bare behinds and forced cock-sucking for one sister as punishment and many of the co-eds wear garterbelts, of course. In the things you've never tried before department, one co-ed supports herself on a hand bar suspended from the ceiling of the fraternity house while she rides her male friend. A weightless fuck, or the old male dream of the girl in the basket with a hole in it. Women will find this one pretty ucky.

1978 Best Actor Award, Erotic Film Festival and Best Supporting Actress Award. Begins with a five minute intriguing introduction of a guy and a gal playing in the snow, but quickly deteriorates into a plot that seems to revolve around a guy who reaches his orgasms not as a participator but as a voyeur. Several amusing scenes of men brought to a high pitch by women and then left gasping by women with a chuckle. Pretty settings in a mountain ski lodge.

Poor Billy - our teenage peanut butter loving hero finds it hard to relate to girls. Aunt Opel introduces him to oral sex by creaming her snatch with peanut butter to make it palatable. Billy's teenage cousins handcuff him and rape him. But Priscilla, to whom he confesses the pains of growing-up, loves him. Some of the quite normal, pimply faced, pimply assed women in this one, along with Billy, don't look much over 18. A much younger John Holmes appears in one scene. It all ends happily and believe it or not after one quite nice romantic sex scene, Billy marries Priscilla!

About a professor who falls in love with a student although he's engaged to marry the Dean's daughter. It has excellent dialogue, extended very believable warm, caring sexmaking scenes, and original musical score, excellent background photography and environmental ambiance. One-to-one sex in all sequences with no group sex or bisexuality. Highly recommended. Ann has produced an adult film in advance of the inevitable future direction of these films. Women will like it. F/A - Many - but not professional and identified by first names only in all the following tapes

Each of these first of their kind tapes run for one hour. They are attractively photographed with Loretta Haroian, a psychologist, offering personal and voice over interpretation. They are intercut with many photographs of erotic art, and occasionally Ted McIlvenna who created the Institute for the Advanced Study of Human Sexuality and the National Sex Forum in San Francisco, appears in person. Volume One is Creative Sex for Couples Who Want a Better Sex Life and includes a chance to watch people as normal as your next door neighbors in various ages from 20 to 70 enjoying sexmaking with their peers, and talking a lot about their experience.

The second tape in the series proposes that sex in bed in the missionary position or even with the woman on top is environmentally uncreative and more often than not is not romantic. New environments which are happily illustrated by loving couples are picnics by the lake or during a hike in the woods. I'm sure that before the proposed 16 tapes are completed even more imaginative places will occur to the producers with more risk-taking involved - such as on the 100th floor of the World Trade Center - standing up, overlooking New York City!

WONDERFUL WORLD OF VIDEO

P/D - Ted McIlvenna, Laird Sutton
F/A - Actors are non-professional and not identified.

This one is in two parts. The first section includes a slow, verbal, laughing exploration by an unmarried couple whether they'll go to the ballet or go to bed. Bed wins and romantic caring sex ensues. Also a couple meet in a laundromat and the woman proposes enjoying a hot-tub together. The second section on sex-aids which shows attractive people using vibrators, dildoes, anal vibrators, cock rings, cock vibrators, and sexy female underwear, turns me off. But it may appeal to many people. Ted wants to establish sex aids, his word "erotons" or sex toys as normal behaviour. My own feeling is that mental exchange is replaced by mechanical exchange. As Wardell Pomeroy, who is a king-pin in the Institute points out...talk is a four letter word, too. But you have to have something to talk about. Whether using sex aids together is kinky behaviour is up to you.

CREATIVE SEX VOLUME IV

WONDERFUL WORLD OF VIDEO

The fourth tape in the series covers Sex Fantasies and Oral Sex and is the best one so far. Fantasies of covering cocks and deltas with cherries and Cool Whip may not be so creative, but a sequence of one man's fantasies with two women is more lovingly and joyously accomplished than most adult films and demands in future tapes that a woman gets equal treatment. An interesting revelation in the oral sex section (which is very lovingly done) is that many women as well as many men enjoy doing it and having it done to them not just for a few minutes but for hours and hours. Oral sex is more fun than sex toys. This tape along with the whole series thus far is worth owning, and will help many couples to dare to talk about their sex lives.

John Alvidsen who directed this film made the transition to "straight" films and in 1981 released The Formula with George C. Scott. While the dialogue is occasionally dated, and all the girls wear "mini" skirts (when they're not naked) this one is a small classic proving that sex and laughter and sheer silliness can be inter-mixed. Alan Garfield, as Jake Masters, private eye, is trying to solve a murder so complicated that you soon lose the plot but it doesn't matter because Jake screws all the female suspects, including one, to his amazement, who is dead and has been murdered. With a very big belly, a bald head and bewildered expression Jake Masters is a film hero who should have appeared in more films. John Alvidsen missed a sequel bonanza. This film could be shown on subscription television.

Mostly filmed outdoors the natural scenery in this supposed spoof of L'il Abner (it's Pussypatch instead of Dogpatch) is better than the boring story line. Lick it, pappy, or "Eat them balls." while macho hillbilly men whack their women's behinds while they are screwing, then you'll like this one. Nicely photographed with women who really seem like the teenagers that you will remember making love to in the back seat of your automobile, if you're male. Jesse Chacan, as Billy an Indian (who really looks like one) and is not circumsized and has no body hair, leaves the reservation to discover the real world. His girlfriend tells him that he has roots and will return which is the only raison d'etre for the title. In Los Angeles, Jesse meets a woman who offers to pose for him (he's an artist) and they poster paint each other's body in a nice erotic sequence. Billy enjoys the fleshpots of Los Angeles. Somehow or other this sexvid hangs together and is amusing. Perhaps because two of the women, Anita Sauds and Liz Renay are quite plump and natural middleclass appealing females. (Anita Sauds has freckles on her chest and belly.) Anita has her red pussy hair cut, trimmed and blow dried by her male hairdresser who then obligingly services her in the chair. Liz and Anita do a burlesque strip tease together and the film concludes with a too long orgy costume party which is occasionally funny and occasionally kinky. At the end Billy goes back to the reservation - and his roots.

The story of a woman who can't reach an orgasm until she discovers that her clitoris is in her throat. "Rescued" by a Doctor who is a follower of the Marquis de Sade she is whipped, buggered, tied in chains and then horrifyingly, in the Journey of O tradition, begins to enjoy her pain, debasement and degradation. Worth owning to test your own reactions. Should the Marquis' writings be totally censored or do we dare to expose the insanity of his theories by openly showing tapes or movies like this? According to movie critic, Jack Kroll, "stupid movies can destroy your brain cells." Home video has solved the problem by giving the viewers a fast forward and an environment where he/she can complain aloud. Keep in mind that there are at least a thousand adult? films on cassettes which are not listed in this filmography, but inevitably I have seen some of the worst, and this is one. The Descendants of Grace are ghosts - Grace's grandfather and grandmother and her mother who inhabit the old mansion. During his life old Grandaddy played by an overweight Richard Bolla"never got enough" but he's still trying. This one has extended sequences of his penis plunging into vaginas which are oozing vaseline, or foam contraceptives, and the heroine Grace ultimately sticks a long knife in her vagina and then plunges it in her heart so that she can copulate with Grandaddy through infinity.

"Ball rich and marry rich," she tells them. An amusing occasionally romantic sexvid which runs for two hours. Several scenes with Clair Dia and Annette reflect warm loving sexmaking, and conversation like John saying: "I must be crazy to fall in love," and Clair responding, "I don't think that's crazy at all." This is one of the few adult films that utilizes the early Medieval Christian belief that human sexuality is essentially evil. The time is England 1826. Two daughters, Hope and Faith, of a fanatically religious farmer (played by Zebedy Colt who wrote the screenplay) are in love with Joseph a hired hand. The father rejects Joseph for Faith and Hope shocked that Joseph is paying no attention to her invokes the devil, "I'll give my soul to possess the one I love." ~~Insstently~~ INSTANTLY, she inherits a horrible looking devil with an enormous penis and balls that he can almost twist around it. Believable cinematography and good acting are combined with devils, witches, and mothers, fathers and sisters who are possessed, momentarily by the devil to perform horrible acts on each other. Satanic-like background music performed as a kind of Gregorian chant along with the story will keep you involved in this one from beginning to end. Things you've never seen before: one daughter so tormented by her lust that she masturbates until shes bleeding from corn on the cob, carrots and sundry vegetables, three devils pissing on a woman, two cocks one black and one white in one vagina, anal sex, shippings, fucking a cadaver all are stirred into a black mass Midsummer Night's Nightmare. In the long history of eros denied there are many many comparable stories waiting to find their way into scarily sex-denying explicit films which in spite of head-shaking are hypnotic.

With a story line that continues through the film, this one mixes sex and horror with witchcraft and Satanism. You'll watch it from beginning to end. Our heroine has weird origins, her father and mother are dead, and when she returns to her birthplace her aunt who really is a witch seduces her and sacrifices her to Satan. But her twin sister, Elaine has taken her place. Pretty soon her boy friends who come to find out what has happened to her are wiped out, too. Interesting cinematography, and sexmaking is photographed from new angles and is frequently caring and interesting to watch. One of Helen's boy friends is very heavy and uncircumsized.

The title on this one is misleading. Beth Anna informs the viewer immediately that she bathes twice a day. As Dirty Lilly she plays the part of a happy moron in pig-tails (wearing knee socks and a little girl dress) in a delightfully hammy way. Silly scenes include her naive appearance on a porno movie set, and with a muscle man who ties her up and then has sex with another woman. Unfortunately, the ending is sick-sick with Beth Anna taking on five Satanists. Beth Anna along with Desiree Cousteau and Carol Connors is the kind of sexually pragmatic, in-control female, despite her seeming innocence, that feminists detest.

This is the most believable sexvid with perhaps the best acting and the best cinematography you've seen in any of them. It is also the most frightening one that you've ever seen. The time frame is 1890. After seven years in prison, three convicts have escaped. Jim, a rancher, near the prison is leaving for a cattle drive, and his wife, Sarah, is planning the wedding of one of her three daughters. A tender love scene sets the prelude for the horror to come. After Jim has left the three convicts arrive. They rape Sarah several times, once in front of her daughters and then they hang her by her arms, naked, in front of her farm house. Then they kidnap the three daughters for hostages and fun and games. A very brutal rape scene occurs when Luke the oldest convict rapes the youngest daughter. The posse and Sarah finally track them down and Sarah discharges her shot gun into the oldest convict's face. This film raises an inevitable question. Why do violence, murder and rape make more believable and sexually exciting films than stories dealing with normal emotions?

Note the rating. There's no bi-sexuality in this sexvid. It's New Year's Eve at a disco club called The Disco Lady where women blow men in the ladies' room or the men's room. Take your pick. There's also a mattress in one of the back rooms for stretched out fucking. Most of the women have shaved pussies. But what really makes this one different is Richard Aldrich, the producer appears (as he does in most of his flicks, but never sexually). Richard tells his film wife (after had has told her that he has been extra-maritally involved) that if she goes out tonight, he'll kill her - and he tries to in the night club in delayed action sequence that is dramatically very effective.

Ken Schwartz (who also did Fiona on Fire) proves again with this one that he can tell a story that will keep you interested. In his second appearance as Dracula (see Dracula Sucks) Jamie Gillis has perfected the role which seems to come naturally to him. The story of a Twentieth Century Dracula (the time is approximately 1990) the Count, who was born in Transylvania arrives in New York City aboard a freighter. Since he lived behind the Iron Curtain, the F.B.I. suspect that he's a Russian agent. Samantha Fox, who looks like Surka a woman he defiled in 1490 (you see all this in the first sequence which is elaborately costumed and takes place in the Count's castle) and now works for F.B.I. tries to discover the truth. While you'll lose the plot, you'll keep watching to the end. Samantha gives a C.I.A. agent, on his demand, head in a porno theatre. When she finishes he tells her: "Get off the floor you're disgusting," and Samantha plays with Bobby Astyr's "snake" and tries to convince him she's never seen one before. Dracula takes over Vanessa on the freighter (she has just finished taking care of the entire merchant marine's cocks) and although stabbed in the heart by a sailor the Count manages to screw her and drink her blood. After turning her into a vampire and enjoying her so much he tries to hire her as a secretary: "Can you type?" Answer" "Yes, fifty words a minute." And one guy discovers Vanessa dead in a coffin. Enjoying necrophilia he brings her to life and she bites him. Before it is over everyone has nasty fangs. Feminists should encourage their male lovers to buy this one, and thereby find out, should they laugh as they watch it, where they are coming from.

There's a softcore and hardcore version of this one. Media has the softcore which eliminates penises going into vagina but not a closeup of John Holmes penis bitten by a female vampire, or the Count "eating" his bride's pussy. The hardcore, Dracula's Bride, provides some sexual relief from the stilted dialogue but not the close-ups of the Count biting female breasts with blood spurting out or the mouths of vampires dripping with blood. Jamie Gillis obviously enjoys himself as the red eye Dracula - and this one finally proves what all Dracula movies insinuate that blood and semen are part of the Count's repetoire.

A one hour light show tape that is totally erotic. You can watch it with the sound track turned on, or better still choose your own music on your hi-fi and then undress and turn down the lights. Stephen Halperin's music such as Zodiac Suite works beautifully. It's great for sexmaking. Before 1990 - many homes will have whole walls in the living room playing Astralvision just the way you play music. Hopefully, some producers of adult films will see the possibility of computer animation using the human form to totally eroticize sex-making in some up-coming production.

Here's "10" carried to it's ill-logical conclusion. Our hero tells his psychiatrist that on a scale of one to ten he dreams about a girl, though he hasn't found her, who is "eleven." If nothing else, the sequences with various women on his way to finding "eleven" prove one thing. The average female is very much in control of the male who is always in need of sexual relief. This one won't add anything new to your fantasy life - except a sequence where two people make love in a coffin, proving perhaps that an orgasm really is "Une petite morte." When our hero finally finds his woman they make love not to Ravel's Bolero but to Tschaikowsky's 1812 Overture - with our hero's cannon going off, of course!

If you're old and decrepit, or watch late, late shows, you've probably seen the first version of this one played by Barbara Stanwyck and Fred MacMurray. James Cain's Double Indemnity. The plot is to collect a million dollar life insurance policy on the husband's life so that the lover and the wife can share it - and each other together. This one has John C. as the bad guy and Leslie Bovee as the wife. After John strangles the husband (he's hiding in the back seat of the Cadillac) and they put his body in the trunk, Leslie lovingly delighted to be rid of the old man, rides and sucks John to a fare-thee-well - no mean feat considering the size of John's schlong. What makes this one more interesting than most is a consistent story line that only occasionally gets off track, good photography (it was shot in Hawaii) and, in one sequence, a gynecological close-up study of Leslie Bovee's vulva and clitoris and John's hugh penis that may interest many women as well as men. But an extended bisexual scene will turn most women off.

If women are ever going to like sexvids, they'll approve of most of this one. A thin story line about women who change apartments and lovers and enjoy exquisitely photographed sensual and erotic sexmaking with each other's lovers. This sexvid could easily cross the line between sex education films. It offers a feeling-tone that is absent from many clinically produced sex education films and occasionally you can even emote with the actors and actresses!

P/D - William Dancer, Jennifer Ray
F/A - Joseph Nassi, John Leslie, Ken Scudder
F/A - Fanie Essex, Elaine Wells, Phaery Burd

A sick, scary story about a man who looks for young virgins, dates them and entices them to his apartment where his three friends (one a woman) all wearing ski masks burst in and rape his victims (and him, as a cover). The rape sequence is done twice with thoroughly nauseating detail and pretty good acting. If nothing else, this sexvid provides a test tape for psychologists investigating male sex arousal by rape and for any male who wishes to test his own subconscious feelings.

P/D - Gerard Damiano
F/A - Paul Thomas, David Morris
F/A - Georgina Spelvin, Nicolle O'Neal, Kyotto Sunn

Nominated for the Erotic Film Award in 1979. Bowing to the pressure to produce films with at least five women experiencing sex, sucking cocks or being eaten - all within an hour - Damiano has produced another film of vignettes (cf Memories within Miss Agee, People, Skin Flicks.) The unrelated fantasies mostly of women include double cocksucking, double insertions and lesbian encounters. While every one gets what they want, no one seems much happier afterwards. The film concludes with the whole cast waving happily at the viewer with the Golden Gate Bridge in the background.

FANTASY GIRLS NN BI DK 1976 ASTRO

P/D - Alex de Renzy

As usual Alex tells a consistently integrated story. This one which gives no credits to the actors and actresses except the wording "Thanks to my friends the players who made this film possible" has only a few people of either sex that you've seen before or since. It's the story of a massage parlor and the various lives of the women off and on the job, on outcalls, and in the saunas. One extended bisexual scene could be used as a training film for men on how to arouse a woman. The film subtly accentuates male dependence on women (the masseuses) who are serving them. One poor guy offers $500 to climax inside a woman.

Two girls with one guy, and two romantic love scenes (this is a Gail Palmer sexvid) one with a lover singing romantically at a white piano, in a white suit in a white bedroom, and one with a Japanese girl giving a sailor an extended sexmaking ceremony. In this one you can see John Holmes before he became Johnny Wadd and Desiree Cousteau before she became Pretty Peaches. All very young and beautiful. The title is a misnomer. Annette Haven saves Sports Life Magazine from bankruptcy by re-orienting the magazine to coed sports. The plot gets lost in transit but there are some silly scenes with women kung fu experts defeating their male opponents and then reviving them, you know how. Things you've never seen before oral sex in a swimming pool including underwater come shots. Despite the feminist plot, except for sexmaking on a sailing yacht with Annette and Paul Thomas women won't like this one.

Best Costumes - 1977 Erotic Film Festival. One thing that Alex de Renzy can do is create a porno film with a story line that goes from A to Z and blends all the porno film conventions without losing track of the basic plot - no matter how thin it may be. You'll watch this one in horror. It includes rape, nipple burning, fist fucking. The final scene a leather bondage party goes on for twenty minutes and equals anything you've read about the decline and fall of Rome. With what seems like a hundred guests in a San Francisco mansion, it incorporates every kinky sex act you've ever read about.

P/D - Kenneth Schwartz

Kenneth Schwartz has proved with this sexvid that it is possible to tell a dramatic, totally involved mystery story with good dialogue. He uses the Laura plot theme and interweaves every aspect of human sexuality from incest to S + M and a vividly frightening rape scene on a New York subway. You won't know the answer to who "murdered" Fiona until the last scenes, but in between you will see some excellent film editing and good photography as well as top acting by Sam Dean who plays a black detective, and Amber Hunt and Jamie Gillis who do as good an acting job as appears in many television and Hollywood films. Worth owning.

A half hour, shot directly - to - video - tape sexvid aimed at a male-female home audience. (It sells for about half the price of adult film sexvids.) Promo: "Pick up Football Widow today and score a touchdown in your bedroom!" This is a laughing story about a young woman whose husband prefers pro-football on TV to her enticements. She rips the cord off the set and when her husband leaves offers herself to the TV repairman among others. After a group sex party she reunites with hubby and all is well. This and many other Scorpio tapes point the way to a new type of sexvid that will appeal to many women, and offer a sex-education, to boot, along with story.

The story of a conservative middle class, middle aged woman whose husband has left her for a younger woman, but in fantasy is still dominating her life and the kind of erotic female she has never dared to be. It's a classic that should be in every sexvid library. Most women will relate to Georgina in this one. Don't give up on sexvids until you've tried this one.

Then with a collar around her neck she is led around naked on hands and knees, after which she is whipped on the ass and is finally tied in chains to the ceiling, hanging from which she is fucked silly, and ends up begging for male cock which is shoved angrily into her mouth for several minutes. Mr. X's several ladies, who he treats lavishly and like a "chevalier sans raproche", are always disappearing on him and enjoying quickies in unlikely places like ladies rooms, outdoors in the woods or on beaches, in boutiques, ballet classes, with riding instructors in stables. Plotless, but with several long scenes of inter-racial sexmaking with both black male and female lovers which are nicely photographed. The European ambiance - this one was made in Germany - makes it more interesting than most sexvids with non stop screwing.

As for the Stepdaughter, the plot? is that Mommy won't have sex with Daddy any more because he got too fat. The Stepdaughter doesn't mind and when she arrives, Mommy catches her with Daddy and decides to join the fun. Pretty ucky.

Screw's Best 10 of 1978 #7. A male voice-over holiday tour guide opens this one with a tour of London and offers comments on the action through out the tape. Claudia who lives with boyfriend in London is on her way to Hamburg to visit her daddy and stepmother. "Just because they enjoy each other doesn't mean that they can't enjoy other people too." Which sums up this European made film. Daddy collects pornography. Stepmommy runs a stud service. Claudia's lovely virgin sister masturbates most erotically for ten minutes, and a woman sticks her finger in her own ass and tastes it to prove to her lover that she adores him. Often sickly - ucky, it has a European master-male ambiance that American women will detest.

P/D - Dennis Stevens

While the movie never comes to grips with the joyous sex of the ~~movie~~ book nor its conclusion in group marriage, it still has never been shown on commercial television both because the idea is too controversial - alternating roommates (in college) of the other sex - and because of frontal nudity in a critical swimming pool scene. It's still a good movie for teenagers and their parents to discuss together.

If you've ever thought about the possibilities of a fully equipped gymnasium as a place for sex-making, this sexvid covers all bases including belt massager vibration while you're having oral sex, or actual intercourse, or coming while you're riding an exercycle, or riding a roller massage, or screwing, eating and sucking in the swimming pool. The premise of this female directed film is that sexercise is the way to keep healthy, and maybe it is! It even has a story line about a hung-up, sexually repressed woman doing an expose on a health club. Most women will enjoy this one and Abigail Clayton's acting which occasionally is surprisingly good.

It begins in the western cowboy era when Ralph the Kid, a nearsighted killer and his girl friends are shot down at high noon. They return to today, rising from their graves to a sorority that now exists on the sight of the old bordello. Serena and Seka are ghostly housemothers holding the fraternity brothers putzes when their girl friends won't, and encouraging all the young people to enjoy themselves sexually. A unique BI scene with both Serena and Seka convincing a young woman that they are her boyfriend, and Seka putting her whole hand in Serena's vulva while she (more gently) masturbates the girl. Seka loves them all: the long, the short and the tall, and one two three at a time. She also, in her own words has a "juicy pussy" for Merle Michaels. An extended sequence with Merle and Seka, and one with Seka masturbating (ten minutes or more each) are really a sex education for males. Run them in slow motion and learn how to arouse your ladies. This is a male oriented sexvid replete with several garter belt and black silk stocking strip scenes An extended sequence inside Plato's Retreat completes the tape with a non-stop group sex fucking scene. The film ends with a statement "Ken and I have been married six years and have never been separated during this time. All the scenes in this picture are true and accurate representations of my actual experiences." You'll know a great deal about Seka's body when you finish but what goes on in her mind is still a mystery. Worth owning because after this can only be the deluge! His wife solicits young women to join them in threesomes at their summer place. Back in the city (Paris) he takes care of twins and several other women. Things you have never seen before - but are coming to if you live long enough - an older man ejaculating. Jacque can get it up all right but his jism doesn't spurt like a younger man - simply oozes out. Of course, Jacque's women are all 20 to 30 years younger than he is. What makes this sexvid different from most is the amount of dialogue - even in the middle of screwing - and plot line that finally gets off the ground when it concentrates on a presumably 16 year old high-school baby sitter who services her classmates while she chews bubble gum, and incites them to masturbate while she watches...plus a female who can tie her labia in a knot and stretch it out far enough to push piano keys with it! It takes about ten minutes before this one gets to the Indians and total insanity. But finally to the accompaniment of the Nutcracker Suite Professor Von Martin and his student Kate are out in the desert with Indians who are watching them eating watermelon and blowing bubble gum. Then Kate and the professor are lost in the desert, running around naked, while the Indians including a midget, an uncircumsized Jewish Indian Chief with a black cock and his two sons, one gay and one black are fornicating among the cactus with the Indian girls and Kate. Mel Brooks didn't make this one but the style is reminiscent. Lighting was no problem since it was mostly shot outdoors and unlike most adult films is in constant motion. Plenty of low-class bar-room style humor.

This is a German made film which offers a bi-sexual, hetero-sexual, menage-a-trois melange, without a plot that gives you nothing you haven't seen before except many attractive male and female European faces and background scenes of Munich. Laura is trying to decide which of her seven lovers of the past week she really loves. They include men as well as women black and white. In the things you may have wondered about department - How to become a member of the Mile High Club? or screwing in an airplane at 5280 feet or higher not on automatic pilot - Laura and her friends and another woman and the pilot show you how!

Best Film 1979 3rd Annual Erotic Film Awards. Best Screen Play, Best Costumes, Best Film Editing. Screw dissented because of the romantic elements which did not produce the appropriate hard-ons. Even in the conventional orgy scene which takes place in a barracks in Vietnam the erotic elements are well handled and very interesting. All women (and hopefully many men) will empathize with the scenes of young love between Chris and Casey, and many years later his love for her which is strong enough to rescue her from a hooker's palace. Maureen Spring is a sympatico female. Not beautiful but human. Most men and women will identify with her.

P/D - Radley Metzger a.k.a. Henry Paris

This one has a commercial "R" rating. A four character drama. You'll understand this sexvid better if you look up lickerish in Webster's. A little used word today it encapsulates human sexuality somewhere between lust and lechery. It begins very erotically in an Italian chateau where a wealthy licKerish-family, threesome are watching porno films. Later they believe they identify one of the female actors who is now riding a motorcycle in a local carnival dare-devil-show. She goes back to the chateau with them, completes the quartet, and has very erotic sex separately with the father, mother and son during which they all search for their identify as human beings. A great film - worth owning.

A pot pourri of sex loops combined with interviews with the kind of people who appear in "quickies" and make them. Another presumably depicts sexual meditation, or tantric sex, but despite the raga background music, it ain't!

The girls in Townsend School for Girls, a boarding school, spend their time seducing male teachers to improve their marks. A thin story line involves the coach who is in love? with one girl and gets seduced by Casey Winters who is very pretty and because he does it in the dark with her doesn't know it until later. Many sequences of sexmaking which are educational to watch if you watch them in frame by frame slow motion. But who is Joanna Wilson? - presumedly the director.

Her friend Debbie is almost a virgin: "Whenever I've done it I was sort of raped." The girls watch Daddy's porno movies in the playroom and compare Johnny Wadd's size with the size of their own boy friend's cocks, and they fantasize bondage and discipline (a film-maker's trick of offering reality by presumedly making it unreality) and they invite two boys back to Debbie's parents' house when the parents are out. Debbie fights one guy off but let's him play with her, and Marla goes the whole way. It all ends when they are caught by Debbie's mother and father. Very pretty young women who look like teen-agers and guys you've never seen either-plus a dialogue that will often remind you of your high school days.

Who is Bernard Morris? This one storywise and cinematographically is head and shoulder above most sexvids. Commencing with an exquisitely photographed underwater sexmaking ballet scene, the participants emerge with the female demanding: "You did it again! Why did you come so soon." Presto, Old Nick appears and offers the solution for a permanent hard-on in trade for the man's soul. Never mind that the basic plot gets lost, somehow or other, the film hangs together from beginning to end with strong environmental ambiance, and silly lines like, "Oh Charley, you're so nice I'm going to let you fuck me in the ass, or "You're so nice I think you should marry me." Amazingly, at the end the Devil comes to collect.

A sexier version of Mash than will ever appear on commercial television. Although it has a copyright date of 1979 it probably was made a few years earlier. Backgrounds are reasonably realistic. Nurses screwing in the jungle with MD's, doctors operating in tents while they are being blown by the nurses, nurses crawling into bed with patients, two of them having a naked mudfight while the entire camp cheers, and Hotpuss and Telescope counterparts of the TV version copulating in the shower while the camp watches them. P/D - Robert Lyon, Russ Carlson
F/A - Jamie Gillis, Eric Edwards, Russ Carlson
F/A - Leslie Murray, Coleen Anderson, Marlene Willoughby

If you see Russ Carlson's name on a sexvid you can be sure the plot will be immensely complicated. This one has many New York scenes attractively intercut into the story, and like Carlson's Slaves of Pleasure proves that cinematographically and despite occasionally insipid acting, it's possible to make adult films that are erotically appealing - but not when the director gets hung up and tries to give the raincoat crowd its money's worth, as this one does. The story is about Siamese twins separated at birth with no body scars remaining and no knowledge of each other's existence. Alice is happily married, and Eva is in an insane asylum in Quebec. Now, at this late date (they are both in their late twenties) Eva is communicating telepathically with Alice the sexual trauma that she is experiencing as she's being raped and buggered by doctors in the insane asylum. Jamie Gillis, as a psychiatrist, with the help of a detective gets to the bottom of the problem - (not with Alice but rather with one of his female colleagues). Everything you've ever seen before in an adult film is in this one, and a few additional kinky scenes as Eva, one twin is being "restrained" sexually by the doctors in the asylum. Potentially the plot didn't require that the sisters be Siamese twins, but simply twins and needed no insane asylum - simply sisters who are totally different kinds of women communicating with each other telepathically. With this kind of story construction - playing off immorality of one against morality of the other - could have created a really interesting sexvid-which this one, unfortunately, isn't.

Cecil Howard offers enough non-stop art and erotic genital cinematography to guide filmmakers for the next decade. The plot, if you can follow it, involves a sixteen year old female listening, in her bedroom, to her mother in the next room getting slapped on the ass by Jamie Gillis followed by a detail insertion of one finger into her anus and the rest of his fist into her vagina while she moans in pleasure in a you've-never-seen-this-before closeup. Lysa Thatcher, our heroine, is so entranced by her future step-father who explores her genitals (they are caught in flagrante by momma) that she runs away and among other things gets mesmerized into a floating astral-fuck which has unexplored possibilities for future films. Ladies past 35 will not applaud this one.

The 1980 tapes were shot directly on video tape and are much sharper. The proceedings include nude strippers doing burlesque routines and pussy showing dances in the bright sunlight with prizes for the best entertainers, most beautiful women, and even most beautiful men along with a short mud wrestling sequence. The 1980 tapes could serve as a release mechanism for many uptight young women who will be startled to see how their sisters dare use their bodies in a very natural way to eroticize and entice the male. While these women may not be intellectuals, there's no reason why high I.Q. women have to repress themselves, either.

In the beginning we are born. In the end we die. The middle is called life. Thus begins the most erotic and perhaps the best film that Damiano has made. The beginning is the story of Charles and Diana who have been married for a few years and no longer turn each other on. After a highly stylized orgy scene at Madame Zenovia's Charley and Diana remove their masks and you watch them in the most erotic sexmaking scene you've ever seen on your tube. The middle comprises three women who reveal their sexual frustration to their psychiatrist. And you will cry at the end for Susan McBain as Nicole, a lovely skinny, New York model who after being put down by a porno flic producer and a photographer for a bizarre magazine returns to her apartment, shaves her pubes and while she masturbates fantasizes herself with a romantic caring lover, after which she puts a revolver in her vagina and pulls the trigger. Excellent cinematography and good dialogue. Worth owning. Women will identify with this one.

In the first episode of this one (shot directly on tape film with very average looking people) the guy who can't satisfy his girlfriend gives her a room full of cocks - at least six of them - which, without bodies attached, she enthusiastically sucks off. The second gift is Deepstroke. A husband services his wife in an extended, but conversationally interesting sequence that covers all aspects of normal sexmaking. The final episode is what every guy wants for his birthday - his own real live doll - this one given to him by his wife. Nominated for the Best Screen Play, Erotic Film Festival 1977, it's the story of a woman who marries an older man with a teen-age son who goes all out to seduce her and succeeds. Superior film story telling with fast jump cutting and voice over to explain flashbacks and give them credence. At times the story line gets lost as Spinelli tries to cover all the sex film conventions but the acting is occasionally pretty good, and the sexvid gives some idea of the potential possible when a daring producer dares to concentrate on one or two women in a film and develop character.

Although it was made nine years ago and adult films on video tape were not heard of, and live sex shows and massage parlors didn't have the "class" they now do, this sexvid (introduced by the District Attorney of New York's Nassau County who tells the listener he must prosecute pornography since it is in violation of the law) is still pretty much where it's at and a look at the seamy side of the human sexual coin. A girl and a guy selling flowers in Times Square tell how they made porno films for the money - "Why not sleep together, anyway." Lesbians and homosexuals describe their sexual motivations in very natural, unrehearsed dialogue (and, of course, all of them show the intimate sexual action involved in their relationships). An owner of an adult book and sex aid store displays his merchandise and shows artificial vaginas, dildoes, vaginal jellies, etc. A woman who makes plastic molds from the erected penises of males shows how she does it and why. Girls available for body painting are seen in action and describe (in voice over, as do all the participants) how they enjoy their work. You visit The Pleasure Chest which sells the appurtenances such as chains, whips, handcuffs, clamps etc. enjoyed by the S/M trade, and a prostitute tells the problems and rewards (financial) of her trade. A believable true to life documentary that you will never see on commercial television.

Best Actress, 1979 - 3rd Annual Erotic Film Festival Award. Pretty Peaches is a female Candide...everyone's victim, but she is so happy-go-lucky that her misfortunes never affect her. After her jeep collides with a tree, she's flipped on the ground. Unconscious, she is revived by a penis, of course - after which to recover her memory which is suddenly lost she gets the most detailed enema you've ever seen. Women may not identify with Desiree Cousteau (or Carol Connors) who play a similar type as Candy) but she's so naive that most men will want to play Big Daddy with her. WORTH OWNING.

The time is World War II, Dec 7, 1941, Pearl Harbor. You may not believe your eyes or ears but John C. tells an Oriental woman he loves her and will return in 60 days to marry her. Then in the attack she is killed. He goes to sea and his ship is torpedoed. John is washed ashore on a tropical island. Women will enjoy watching John bathe naked beneath a waterfall, climb trees to get cocoanuts. The photography (shot in Hawaii) is excellent and romantic. But now you really have to suspend disbelief. A Nazi Colonel (Hogan's Heroes style) is running a P.O.W. camp - with three women (one Japanese). They've captured two American nurses and are pussy whipping them into climazes. John C. is captured and they force one nurse to suck and fuck him. But John wipes out the bad guys and gals and lives happily ever after with the nurses who even get pregnant.

At least cinematographically, Metzger has tried to make the sex scenes in this film artistic. But the story of Pamela who can't get enough sex and her husband who aids and abets her, escapes Metzger, in silly dialogue. A very erotic bisexual scene between Georgina and Barbara Bourbon. In the heterosexual scenes Barbara can out deep-throat Linda Lovelace. Metzger set the pace for the outerlimits of choregraphing sexmaking on film. Nothing like it had been seen before 1974. But today it is well copied.

F/A - Mary Mendum, Marilyn Roberts

You won't ever forget this sexvid. Despite the rating, it's like no sadism/masochism film you've ever seen. If depiction of sexual pain and horror can become a classic, Radley Metzger has done it with this one. Exquisitely photographed in Paris, it's the story of Anne, a beautiful masochist who "belongs" to Claire. In the course of a very erotic buildup you watch Anne (through the eyes of Jean a male friend) who is excited by submission. First she is punctured by a rose thorn which Claire presses against her upper thigh. On command she pisses on a rose she has plucked in a Paris Garden while they watch. In growing horror you watch Jean and Claire put caviar, olives and cherries in her vagina while she sits between them in an exclusive restaurant and where they masturbate her. Followed by whippings, Anne is nearly drowned in a bathtub, and then hung in a chamber of horrors where she is punctured on her stomache and the edge of her breast with a hot needle during which, and after which, she is screaming, in agony, but she is totally orgasmic. Worth owning for its total shock value.

F/A - Nils Hortz
F/A - Penelope Lamour

This is a French made film which originally was titled Une Sex Qui Parle. It has dubbed in English. I have the feeling that the French version has a less strident voice emerging from the heroine's vulva and more subtle sex-talk. The lovely female can't control her talking pussy which not only tells her husband about her sex life before marriage and during, but also contradicts her and tells her husband "She really hates you!" Theoretically this sexvid should have an NL rating but it's not very funny. But it has better photography and is more subtle than most American sexvids.

Poor Desiree - strapped to a fucking machine by a concentration camp Germanic type she is experiencing orgasmic problems. But worry not, her body is manufacturing Orgasmine when she does climax. Injected into any other person's blood stream in the form of a serum made from Desiree's blood it produces permanent erections and nymphomaniac women. Ann Perry who did not produce this film but is distributing it thinks, "It will appeal to women." It does have one scene that is almost romantic. The screen play was written by Terry Southern of "Candy" fame.

Good acting, (especially by Annette Haven), good dialogue and a strong story line would put this one in the top fifty sexvids. Beautiful Cousin Joan has come to visit for the summer. In a drive-in she refuses to fool around with her cousin Bob, although his sister, Connie in the backseat (she's also a virgin) in the things you've never seen before department she puts a safe on her boyfriend and sucks him off while he's wearing it. Bob is determined to get to bed with Joannie (even Daddy has fantasies about her when he's making love to Mother) but Joan resists him. He's so hard-up that his sister Connie masturbates him, and it seems when they were all kids, and Joan came for the summer, they all played doctor together. Bob offers Joan a sleeping concoction (the parents have gone on vacation) and in a highly erotic sequence makes love to her while she lies out cold on the bed, like a corpse. You have to suspend disbelief to accept this until later Joannie (Scarlett O'Hara style) proves she never drank it. The conventional orgy ending in this one gets a bit yucky but Joannie gets her revenge on both Bob and Connie and it comes as a neat surprise.

F/A - Marilyn Chambers, Kani Jones

This sexvid (better than Behind the Green Door) proves that an intelligent story line can be blended into a sexually erotic movie. Cinematically equal to any Hollywood product it has a story that keeps the viewer intrigued by clever interweaving of Eve's life, from a child of 13 to much later when she's living with a very jealous disc jockey who believes she's screwing with a black fighter (Johnny Keyes). She isn't. After an auto accident Eve becomes Marily Chambers, and marries the disc jockey who gradually talks her into "swinging" and then gets jealous of her when she finally enjoys it. Most women will like this one. It has many romantic sequences, and excellent acting. It raises the question - why didn't the Mitchell brothers do it again?

After that it's all down-hill. This is a sexvid for men who enjoy watching women make love. Scene after scene is offered of female twosomes, threesomes and foursomes. She's so clinically sexually aggressive that in real life she'd probably scare many men into permanent impotence. Things you've never seen before: Roberto - an electric penis designed so that the female user can control the stroke speed and length. Good acting, excellent dialog, and editing. Elvira and Jack who have been married a few years are swingers. Either of them would jump into bed with a porcupine if it suited their sexual fantasies. Along with Betsey and Eddie they are somewhere in Europe in the town of Leisure. The Score is a toss-up. Can Elvira and Jack seduce Betsey and Eddie - heterosexually or bisexually? It really doesn't matter. Betsey and Eddie are the innocents - a version of Martha and George's guests in *Who's Afraid of Virginia Woolf*. The bisexual seduction scenes are cleverly intercut. After a bi-sexual night with Elvira and Jack, monogamous innocence is replaced by "It doesn't matter who you love just so long as you love." Excellent erotic filmmaking by a master of the art.

Don't confuse this one with the novel about a boutique on Rodeo Drive. It's a series of loops hung together by Nancy Larson an investigative reporter whose assignment is to "explore the average guys sexual fantasies." Things you've never seen before: a female's anus being massaged while the female sucks the masseur's cock. In a threesome one woman pulling a cock from her friend's cunt - sucking it awhile and putting it back. But this one's claim to dubious fame is another S & M scene performed by Jamie and Serena (see Bound) "If you're really a good boy, I'll let you jerk off on my high heels. She whips him, puts lipstick on him, and tells him suck her dildo. Much anal and vulva whipping. Clair Dia must have forgotten she's a woman.

Lois's (Andrea True's) friends are frustrated suburban housewives whose husbands are always going away on business trips and "come too soon." One of them tells the girls that she collects her husband's come in a dish and uses it for facials thereby getting some use from it. Lois gets more attention from her dog than her husband Max. So - while their husbands are away they all go to a swing party where there are plenty of males belonging to other women to be seduced by and to seduce. Lois falls in love with Derek (Jamie Gillis) who is a heel and after he screws her - at least he can last longer than Max - tries to get rid of her. At this point Lois goes out of character and tries to seduce Derek over the phone in lustful conversations that no self respecting female would ever have with a man, even if she adored him. Max finally comes home and still comes too fast. Potentially, a believable story about sex and marriage this one falls short on characterization and leaves the field wide open.

A sexually weird sexvid pitting Gideon who owns a French chateau which may be inhabited by reincarnated friends of Marquis de Sade against Amy a virgin who has been nearly raped and viciously attacked in a nearby forest. The soft-lighted erotic photography creates confusion that will keep you interested. Gideon tells Amy who he doesn't seduce until nearly the end of the tape that he is condemned to make the women he loves suffer. This is quickly proved with women in chains in the wine cellar. Nevertheless in an extended romantic scene of tumbling, naked sexmaking on sand dunes, Amy succumbs to him. How she manages to keep sand out of her vagina will keep you bemused. In total concept, and surprise gothic ending, this sexvid is almost a classic.

P/D - Wes Brown
F/A - Jamie Gillis, Tony Rousso, Peter Gibbs
F/A - Andrea True, Sharon Thorpe

Most women will watch this one from beginning to end. It has excellent, believable dialogue, and the scenes are erotically photographed. As in many of the best adult films the story focuses on one woman Lynn Carter (Andrea True who doesn't make adult films any longer) Lynn has been married fifteen years and has a boy thirteen. In bed with her husband who is about to leave on a two-week business trip, they make love and he asks her if she's ever been curious as to what it might be like to be with another man. She tells him she's never been interested but wonders what his reaction would be if it did happen. He tells her he would understand and not be violent. The next day, after he's gone, she meets Sean (Jamie Gillis) who is waiting to see the doctor she is visiting to get a hair removed from her eye. Jamie convinces her to have lunch with him and woos her so convincingly she goes to his apartment. Andrea does an excellent acting job as a housefrau who is both terrified and entranced by the very cruel and nasty Gillis: "You make me feel like a whore," she tells him, but he excites her, and controls her sexually against her will. By the time her husband returns she's addicted, and Jamie has continued her sexual degradation. Bewildered, she tells her husband and he is totally shocked. He demands a minute by minute explanation—as he screws her violently, hurting her—of what it was like with this other guy. There is no attempt to resolve the marital infidelity. The film concludes with Lynn still a prey to her new addiction.

If you can imagine it, two men dressed as women, sneak aboard a cruise ship, which caters only to young married women and whose husbands want to get rid of them while they are on a six week cruise. For good measure the captain and crew are also women. This is one way of getting 18 women (count them) all in one place with two guys who are happy to service them all. A non-stop fuck and suck flic. After seeing thirty-six female breasts and eighteen female behinds and vulvas, within an hour and a half, you won't even be able to recall one of the female faces you've seen, or for that matter their genitals either. Assuming that the plot would get boring if only two guys were aboard - one of them Randy West manages to screw five different women one after another. (He finishes off by kissing each of their vulvas tenderly before he climaxes). The directors have the ship invaded by pirates who chase the girls all over the boat and "rape" them in rape scenes that turn into happy compliance.

Damiano not only directed this film but he appears in it as Al, a nasty character who owns a strip joint and finances adult movies. In this behind the scenes story of porno films, the director is ten days behind on a movie that was supposed to be produced in three weeks. "An epic he wants," Damiano, as Al comments on Tony Hudson, who plays the part of the director, "When all I need is fucking and sucking." The plot revolves around an inside look at making of porno films, and one of the stars, Colleen Davis, who falls in love with Tony Hudson. Tony reflects Damiano's true feelings. "Ten thousand years of civilization," he tells Colleen, "Where has it led us? The human body is bad and fucking is dirty." Damiano proves it with Jamie Gillis who is in the advertising business but has seen all of Colleen's films and believes she wants some "dirty" fucking as much as he does. In a terrifying rape scene (Jamie captures her after she tells him that off-camera she wants a relationship and not just sex) Jamie ties her up. Caressing Colleen's body with an open razor in his hand, he puts Colleen through total sexual degradation while she whimpers, at his command, that she loves every minute of it. As in many of Damiano's films there is an uneasy truce between his own Catholic morality and the reality of the adult film industry which he subtly makes apparent. Someday when the adult film classics are available on tape or discs for about $20, collectors will want to own all the Damiano films.

Sultana (Gloria Todd) who lives in New York and can eat two white cocks at once, she also likes to be "raped by white men two at a time and she's in business with Henry Picard (Jamie Gillis) who lives in Paris. They operate a white slave ring. Abdul, an Arab, wants two women, one "insatiable" and one stupid. Richard is married to Eileen who is insatiable, and he's having an affair with Barbara (C. J. Laing) who wants to get rid of Eileen, even though she supposedly is Eileen's best friend. How to do it? You guessed! Sultana has the insatiable Eileen kidnapped. When Barbara tells Richard that she's arranged it and he'll never see his wife again, he's suddenly very angry at her. He wants his cake and be able to eat it. Remorsefully, Barbara tries to save Eileen who seems to be having a good time with the "stupid kidnappee" as well as her kidnappors. But not really - Eileen is really drugged by a new drug UT-13 which makes women very subservient. Richard hires a detective to find his wife, but in the meantime when Barbara tries to save Eileen she is captured and tortured. In the things you've never seen before department, C. J. Laing is suspended from the ceiling, whipped until her behind is bloody. Razor clamps are applied to her nipples which immediately spurt blood. This is a sicky-flicky which will make most women gag particularly at scenes where the women raise their asses doggy style and beg to be fucked. Russ Carlson had a potential story line that could have been terrifying and erotic and developed with plenty of conflict but alas he got caught up in the adult film conventions.

This is not a Science Fiction sexvid. What makes it more interesting is that you never know what the next sequence will bring. From an afternoon at Monroe High School in 1950 "where sex began," to a night in Transylvania (with a black and white silent technique that has unexplored possibilities) where our heroine is raped and sucks back both Dracula and a man in Richard Nixon mask; to Starstruck a football hero who is ko'ed in the big game and brought back to life by two cheerleaders sliding on his face and nether parts; to a woman who can blow out a lighted torch with air she has sucked into her vagina and who later dances with a boa constrictor.

STORY OF JOANNA NN DK DS BI 1975 ADULT VIDEO

P/D - Gerard Damiano
F/A - Jamie Gillis, Zebedy Colt, Stephen Lark
F/A - Terri Hall, Juliet Graham

Damiano didn't make this one for the raincoat crowd. A super-sophis_ticated, moody, decadent film with an intellectual dialogue that interweaves a theme of love, death, sex and lust, it will keep you morbidly watching to the shocking end. Joanna (Terri Hall) is discovered in a continental restaurant by Jason (Jamie Gillis) a moody, malevolent European libertine who takes her to his ancestral castle "to perform a task that I am unable to perform myself." Joanna is entranced by him and falls in love with him but Jason tells her "If you're expecting me to love you in return you're wasting my time...You'll never understand anything until you know who you are." At his command she confirms" "I am a cunt. I am cocksucker. I will love you and I will receive nothing." From an exquisitely photographed nude ballet scene, to a lonely night in bed where she is masturbated in her dream by detached male hands, to a romantic love scene not with Jason but his man servant (played by Zebedy Colt - who also performs the only homosexual scene, - sucking off Jamie - that I've ever seen in a film for heterosexuals) to being whipped, chained and defiled by Jason, Joanna never stops loving him. Eventually you discover Jason is dying of cancer? and wants to "die by the hand of someone who loves me." And he finally does! Terri Hall has a very evocative face, and she does an Oscar style acting job. A few years ago a description for this blending of masochism and sadism would have been called "porno chic." It's worth owning, and may well be Damiano's best film.

SUMMER OF LAURA NN NM BI 1975 VCX

P/D - Y. B. Wellington, David Davidson
F/A - David Hunter, Eric Edwards, Wade Nicjols
F/A - Marsha Moon, Helen Madigan, Kim Pope

Remember The Summer of 41? This is a sexual offshoot of the same story. Two teenage boys spy on Laura making love with her husband who is leaving for the army. They read sex books and masturbate and fantasize getting laid, and finally take their girl friends to a skin flick "It Happened in Hollywood" and they get laid on the theatre floor. Finally one of them Richie goes to Laura's house, finds the telegram that tells her that her husband has been killed in action. Richard immediately makes it with Laura. Both Laura and her husband never stop verbalizing sex while they make love, and Laura evidently likes it because she tells Richie to talk to her while he's doing it. Seeing and hearing it is like carrying coals to New Castle, but perhaps it turns some people on. The big problem with making sex films about teen-agers is that the actors must be over eighteen and everyone in this one is over twenty-five. But the director tries hard.

Marlene Willoughby as Eva (Mark's mother) is trying to regain control (cunt-trol?) of the multi-million dollar estate that his father (her husband) left to Mark not her. Through an agency she hires Sunny (Candida Royalle) to seduce Sunny. Sunny decides that she doesn't have to share the proceeds with Eva - but finds out too late that Mark knows from the beginning that both Eva and Sunny are out to get him. In process Mark is blown by his mother and screws her and Marlene, next to Candida, is the hammiest actress you've ever listened to in a sexvid. A very attractive sixty year old woman the Countess something-or-other appears in this one, but the director muffed it. Instead of having Mark go to bed with her the Countess re-enacts her youthful sex life by commanding Sunny to do it for her with Mark while she watches. Pretty silly.

COLLECTION ONE AND TWO

In the style of Swedish Erotica these are two one-hour tapes with four loops on each running about fifteen minutes. Collection One offers two young women using a dildo together in excruciating detail; a parlor maid dusting the furniture and wearing only an apron and a bra while the master of the house watches and plays with himself before taking her on; a plumber who arrives to unplug a sink, and plugs the owner's vagina instead; and a six foot blonde who dances so erotically for her boyfriend that the mirror in her apartment becomes steamed. More of the same in Collection Two. These loops are standard fare in the adult peep show parlors where it costs about a dollar in quarters to watch a fifteen minute segment.

SWEDISH EROTICA VOLUMES 27 & 28 NN BI DK 1978-1981 CABALLERO

F/A - See below
F/A - See below

Probably the best known of all adult films, Swedish Erotica comprises thirty-two one-hour tapes through Volume 32. They have been available in the past on 8mm film and continue to be a big seller in this form. The tape versions are all produced within the past few years and most of the famous porno stars, past and present, appear on them. Each tape has three episodes and the entire series amounts to about 100 short sex stories. Most of the story lines are concerned with upper and middle class people, and the stories are easier to sustain, amidst much genital sex, than the longer hour or more films. They also resolve the problem of showing five or six women on one film (tape) to satisfy the male viewer. The six stories on these tapes cover Seka waking up in the morning with her horny husband and taking a bath to get ready for sex with him; Seka looking at sex magazines in another story and getting very horny; Lisa Woods running for city council and ringing doorbells to solicit signatures; Shannon looking for a job at a disco; Desiree Cousteau as a nurse giving oral therapy; and an unidentified woman (in the things that you've never seen before department), squirting milk from her breasts into Paul Thomas' coffee, and when that's not enough giving him a long suck from her milk-filled mammaeries. Designed for young men and males who dream about sex-obsessed women who can't get enough cock, Swedish Erotica episodes are well photographed. But most women will be convinced that the actresses must have acquired their libido on some other planet. If you send $2 to Caballero (see address on page) they will send you a catalogue which describes all of the various Swedish Erotica tapes in some detail, and also their many other sexvids. Swedish Erotica one-hour tapes sell for $49.95, and Caballero will make a special price to any aficionado who wants to own the entire series.

To save her boyfriend from jail, Rhonda Jo becomes a sexual slave to John C. and Paul. "We want to see your asshole, asshole" - they tell her when she arrives at their mansion. And they mean it! Paul wipes his finger on her skirt. Later with a candle stuck in her vulva, her legs overhead while it drips hot wax on her buttocks, she provides candle light while they do a double insertion on another lady guest. The big surprise - presumably - is that their slave doesn't give a damn about her boyfriend but is laughing at her "captors" and she really enjoys being tied up and pussy whipped. But this happy Western story about an Indian girl returning to the reservation after living in the East has some very romantic but explicitly sexual scenes. Screw Accolade: "The Best porno film ever made." which is an amazing turn-about for Screw since this sexvid has no kinky sex, no bi-sexuality and more than one laughing sequence including two women comparing pubic hair and brushing and primping it to please their lovers. This is the story of Jack who claims that within three days he can have any woman panting to jump in the sack with him, and his friend Lennie who is so shy he doesn't dare ask. Jack as John Leslie services four adoring women one of whom is Jesie St. James who overhears him talking dirty to some other female. It's not a good title since the dirty talk is normal sex talk. Most women would enjoy John Leslie as a bed friend.

This sexvid, brightly photographed has a consistent, if silly story line. McCallum provides three women (Tangerine's daughters, as a part of the plot) who aren't fifteen or sixteen but occasionally look like nymphettes (especially Holly McCall who will remind you of Judy Garland) to cater to male fantasies about their teenage lovers. Watching Holly McCall tie her stretched labia in a knot, in slow motion, on your VTR provides males a detailed, extended study of the female vulva. This sexvid also may be one of the first to dispense with one-to-one female bisexuality and offer instead three or four women sexmaking with one man and themselves at the same time thus giving the male viewer the best of both worlds. Women under forty may enjoy this one.

An excellent story device with Annie Sprinkles talking to her psychiatrist and telling him about her over-protective mother who she leaves to live in New York City with her cousin, Audrey who is a hooker. Annie Sprinkles does a superb acting job. The dialogue is believable and natural. Amusing scene: Annie and her boy friend peeing on each other. Annie's problem "I always end up in situations where I like the guy but he ~~didn't~~ doesn't turn out the way I thought he would be" gives her instant identification with millions of women. Worth owning. Proves that concentrating on one female is more erotic than skipping through a film story with a half dozen.

Doctor Gonad, a psychologist, visits Madam Rose's brothel to interview the girls and find out why they got into the profession. There are no teenagers in this one, nor anyone who looks like one. The dialogue, the camera work are loops tacked together and include an early John Holmes who says to one of the new girls: "You have to wash my pee-pee before we make love, and when he comes "That's not piss," he tells her "That's love juice." A first grade retarded child could have made a better film, and certainly could have thought of something more exciting than a truck driver who arrives, dresses in women's clothes and sobs to one of the girls "Please don't spank me, mommy, I'll be good!" after which he is duly spanked and eats his own jism off the bedspread. The only reason to own this one is for historical interest, and sheer amazement that anyone (including Bob Rimmer) could watch it from beginning to end. My secret is that I'm learning human anatomy. While some of these sexvids are in process I color in veins and arteries in The Anatomy Coloring Book (Barnes and Noble, $7.95).

Quite frequently the sexmaking in this sexvid is much more caring and believable than you will see in most adult flics. An extended sequence between John Simon and Judy Harris (who has a most appealing face to go with what seems like a teenage body) is erotically photographed and Judy responds much the way you'd expect a teenager to respond. When Judy gets $100 for a taxi ride home after this episode her friends quickly discover they can get paid "a whole lot of money for doing what they enjoy doing anyway. Don't pay any attention to the title (it's a poor one) nor to the illustration on the package. Robert MacCallum has made one of the few adult films for mature audiences. It's erotically photographed, the dialogue is good, the story is believable and the acting especially Georgina Spelvin's and Charles Hooper (who will remind you of Tony Perkins) is excellent. Most women will like this one. The heterosexual sex scenes are loving and caring - even an incestual one between brother and sister, and the most erotic bisexual scene (in a shower) with Georgina and Judith Hamilton you have ever watched. It's the story of Kate (Georgina) who is Elaine's sister and has lived with them for many years helping bring up their children Stacy and Ronnie. Elaine believes that her husband has been faithful to her but doesn't know that he has been sleeping with her sister Kate who tries to get him to leave Elaine and marry her. In a very believable scene on a marina, Kate strikes Mark with a bottle and he falls overboard and drowns. This is very early in the film and Georgina through the remainder with Mark's children, who are in their late teens and Elaine re-enacts her guilt and finally drowns herself. Amazingly in the sex scenes MacCallum uses the camera to watch the female's hands in the act of love and faces. Worth owning.

If Jamie Gillis had gone into "Straight" films he would probably have been as popular as Charles Bronson, or Clint Eastwood. He'll scare you to death in this one in which he portrays a sex pervert, an enema bandit (presumably based on a true incident) who accosts women in their apartments, ties them up and before he rapes them gives them an enema. Thinking about his xx first victim, an airline stewardess who he has watched screwing through his a telescope in his apartment he says: "She dirty. Just a toilet. If I cleaned her out she would be clean again. She'd thank me. She'd be glad I cleaned her out." Damiano gives this sexvid a long scary buildup with Jamie discovering that he is orgasmic when he watches an enema being given to a woman in a sex palace called Garden of Eden which specializes in B&D, S&M, Infantilism, Cross Dressing, French, and Greek Cultures and High Colonic Irrigations. Suspected by a policewoman, C.J. Laing, in the final sequence, he captures her and in a long frightening sequence fills her rectum with water, and then attaches her to the bathroom tap to fill her to bursting. There's no scenes of expulsion of feces or water (see PRETTY PEACHES) but the agony of the enemas are written on his victims faces.

But she can in things-you've never-seen-before closeups vibrate her labia and vaginal muscles before and after she masturbates. Obviously in the vernacular she can milk a penis. Another woman in an extended masturbation scene cools her vulva and anus with ice cubes. This one is not strictly a sexvid. The entire movie which was produced in Scotland takes place on Summerisle, an imaginary island off the coast of Scotland which has renounced Christianity and reverted to pagan religions and sex worship. The time is now. A very religious Scottish detective comes to the island to locate a missing girl, and what happens to him will totally astound you. All the paganism in this movie is authentic from historical sources. Britt Eklund does a nude dance out of sight of the detective which is more erotic than anything you've seen in most adult films. Media is making a mistake in promoting this as a horror film although the subtle attack on Christianity will horrify some people and is probably the reason that the film does not appear in the suburbs or on cable or subscription television. It is obviously the reason that the original film wasn't released for six years after it was made. This tape is worth owning. Beautifully photographed, well acted. You'll watch it more than once.

Many women will identify with this film as they are both attracted to Frank (played by Harry Reems who stopped making porno films about a year later). Frank makes love nicely to many women but is faithful to none of them. Denise a German farm girl is bored "with the narrow minded village she lives in and flees to Munich where Frank takes her over for a while before telling her to get out of his life. There is much romantic lovemaking but occasionally intercut with too long scenes of genital close-ups. This is one of the few adult films where sexual jealousy is the motivator of the action. It has interesting European backgrounds and Mari Forsa is a naturally appealing woman. As one of the butterflies in Frank's life she personifies the sexual symbolism that has always been associated with butterflies.

SUPPLEMENTAL LISTING OF SEXVIDS

Together with the preceding listing of sexvids, to my knowledge this is the most comprehensive listing of heterosexual adult films available anywhere. But unlike the preceding listing of 400 adult films produced between 1970-1981, the following listing of more than 1200 additional sexvids is not rated with my unique rating system, nor does it offer any purchasors guide, with comments on particular films. Finally, it does not identify some of them as Collector's Choice, as I have done with approximately 100 tapes in the preceding listing.

The reason for this is that I have not watched any of the following films on tape. So far as I have been able to determine all of these films have appeared on tape at one time or another--with the exception of those coded Expanding Vision. The reason that I have coded these films with Expanding Vision is that this company has access to these 16mm films, none of which, so far as I can determine, have yet appeared ontape. Eventually, I'm sure that some of the distributor/owner's listed will offer these tapes

Whereever possible I have tried to give the name or names of the exclusive distributor/owner of these tapes, and they have been coded so that it is easy to identify them--in the following address listing--so that you can order them direct. In a few cases where the particular distributor does not sell direct, I'm sure that they will advise where you can purchase their tapes. In any event your check must accompany an order. Prices range between $39.50 and $99.50 (depending on the length of the tape in most cases) and most distributors will be happy to send you their complete catalogues (often produced in four colors) if you will send them a check for $3

But you should be aware that most distributor catalogues promote particular tapes as flamboyantly as possible, and do not give you a rating guide, or the kind of comments on films that appear in the preceding listing. Unfortunately, also, from the standpoint of collectors and afficiandos, the catalogue listing of many tapes do not list the actors or producer/directors. Again, many distributors seem unaware that ultimately there will be many collectors of these tapes who will want to search out tapes with actors and actresses such as Harry Reems, Andrea True, Jake Teague, Renee Bond ,Tina Russell (who is dead) etc who no longer appear in these films. And, in many cases, these earlier films, (for reasons I have pointed out in the previous text) are more fun to watch than some current films on tape.

It is entirely possible that within the following listing of more than 1200 tapes there are some better (or worse!) than those in the particular 400 listing. There are some I'm sure that should be coded as Collector's Choice. But there is no central source or library where a researcher can view adult films, and for one reason or another (although I have proposed a museum or university sponsored Center For The Study and Development of Adult Films) a particular distributor would not provide a review copy.

Finally, since all films covered in this book are hetero-sexually oriented, please note that their are no strictly homosexual films listed, although several hundreds are available.

ADULT FILM OWNER/DISTRIBUTOR LISTING
